Description

Introducing the all new Stacer 2026 Revolution Hull.

The revolution hull, which was developed through natural evolution of the Stacer's famous and renowned EVO Advance presssing and raised chine, now combines a concave bottom sheet design, together creating a high performance hull that glides over the water.

The 469 Outlaw also now boast a high motorwell with Live Bait Tank in the rear portside transom. This eliminates any doubt for anglers to take this boat off shore, to catch those big ones!
