Description

The 529 Outlaw Side Console is designed to cater for general sportfishing and boasts front casting platform and a high rear motor well with Live Bait Tank plumbed. These are ideal for not only inshore lure casting but also for soft plasticking for snapper as well as offshore.

The all new Revolution Hull, which was developed through natural evolution of Stacer's now famous and renowned EVO Advance pressing and raised chine, now combines a concave bottom sheet design, together creating a high performance hull that glides over the water.

2 side pockets under the gunwales and an anchor well on the bow ensure a clutter free fishing space.

2 pedestal type seats are supplied with the boat and spigots allow seats to be removed if fishing alone or passenger seat to be moved forward. An optional spigot is available if required on the front casting deck.

The provision of adding a bow mounted electric is possible with the option of a thruster plate up front and with two side storage compartments under the casting deck easily holds a couple of deep cycle marine batteries.

A port side transom step and rail as well as a 95lt under-floor fuel tank finishes a very neat layout.

The design of this boat is primarily based for fishing but is versatile enough to be used on family weekends away or just towing a tube for the kids. Many options are available to customise these boats.

The 529 Outlaw is married with Stacer's custom made trailer to provide the safest and strongest companion for your Stacer. The alloy trailer is specially fitted to your boat before it leaves our factory meaning they are perfectly matched for each other. Stacer trailers have been extensively tested with a simulated 100,000km around the Army 'Torture' test track to ensure they stand the test of time and the harsh conditions of Australian roads.

specifications

Beam: 2.22m

Bottomsides: 3.00mm
