Description

Yamaha's all new F150 DEC features Digital Electronic Control technology, previously only seen on Yamaha's big horsepower range, introduced to the popular 150 horsepower segment. This 'fly-by-wire' control delivers extremely smooth and precise throttle operation, for a more enjoyable and effortless boating experience.

The larger 2.8 litre displacement of the F150 DEC, delivers increased low and mid-range torque, helping to get up on the plane quicker and with less effort. The F150 DEC is fully compatible with Yamaha's new CL7 touchscreen multi-function gauge, delivering GPS navigation and mapping, graphing and fish finder functionality. This gauge is also NMEA2000 compliant, providing full connectivity to third party marine equipment such as sonar, radar, camera and all leading display brands.
