Description

Yamaha's new F175 four stroke is based on the award-winning F200 inline 4 and delivers an exceptional power-to-weight ratio due to its extremely lightweight design and high engine output. Suitable for a wide range of vessels, this 2.8 Litre, four-stroke engine delivers an unbelievably smooth and quiet performance.

With its narrow 600mm mounting centres, the F175 is ideal for twin engine applications and has been engineered to operate Yamaha's Shift Dampener System (SDS) propellers, resulting in smooth shifting, vibration-free operation, and reduced overall noise. Choose between mechanical or 'fly-by-wire' digital throttle control options, for an extremely smooth and simple top boating experience.
